### IMPORTANT NOTICE from the Waterbury Shipping Team

Every order shipped from our Distribution Center in Waterbury is triple scanned to ensure accuracy.

- Scanned during picking for item accuracy
- Scanned during packing for count accuracy
- Scanned during loading for shipping accuracy

The ship-ticket (packing list) included with your order will display the carton number and quantity under each line item. If you are not sure what carton an item in your order is packed in, refer to the ship-ticket. It will identify the carton(s) and the quantities in each carton.

Each carton contains a label that displays the billing and shipping information: name, address, the date shipped, order numbers, etc. It also contains a content label showing the items and quantities that are in that particular carton.

We are very excited about this innovation and are interested in your feedback. Please let us know what you think!
