## CG4 GAS BURNER

### Features & Benefits

CG4 gas burner features advanced components for improved burner performance. The CG4 is also a certified conversion burner that can be used when existing oil installations are converted to gas.

- 24volt standard gas valve, 3.5" W.C. manifold
- Removable Gun Assembly for ease of servicing
- Air guide provides high static pressure for smooth starts and minimal pulsation

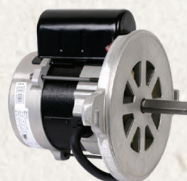

## GENISYS 7590 GAS BURNER CONTROL

Flame rod, programmable pre purge settings and Recycle operation on loss of flame

## 5260401U GAS IGNITER

Higher output voltage for reliable ignition and approx. 75% lower input amps

## 21805U PSC MOTOR

Proven durability with lower amp draw and cooler operation
